

CIT 230

Jeungyeon Yoon

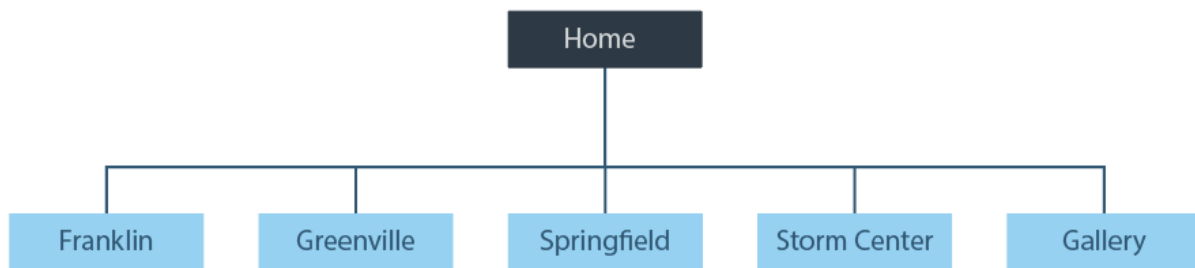

Site Purpose

My weather forecast site will notice weather to people. In addition, by providing weather forecasts, people can cope with weather fluctuations. This can prevent a bigger accident. As providing weather forecast, people can prepare for their activities.

Target Audience

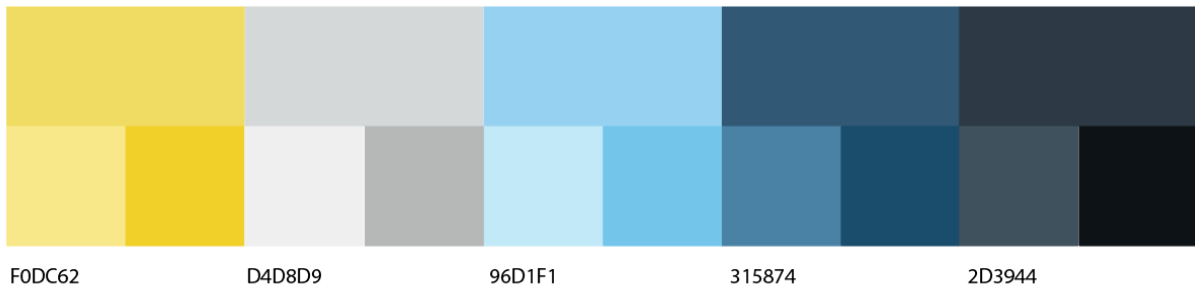

People who prepare a day with checking weather forecast, or people who enjoy outdoor sports such as tennis, inline skating, or cycle. Moreover, my target audience can be people who have a plan a camping for their leisure. For them, checking weather forecast is essential.

Site Map

Color Scheme

Overall, I want to use sky blue and soft yellow color as a main color. Moreover, I also decide to use light gray and dark blue as a secondary color. I expect that it is going to make harmonious weather forecast site.
